

## Amish Young Ladies Hone Their Needlecraft Skills as They Share Gifts

The eighth grade Amish young ladies from West Ridge Amish School, Grabill, IN produced 21 exquisite quilts for our kids as part of their graduation work from eighth grade. Sewing is a basic necessity for young ladies in the Amish community, since Amish moms produce all of the clothing worn by all family members, as well as fabric necessities of the home.

These elegant and colorful quilts are an expression of both the ladies' craftsmanship and aesthetic sensibilities, so important, so necessary, in their lives. Recently seven of the young ladies, Three young eighth grade men, and four adults visited us, delivering the quilts for our kids.

In the photo right, Mizpah Shrine drivers Jerry Willman and Doug Brouner pose with some of the quilts and Mary McCauley, who received the gifts on behalf of the many patients who will benefit from the young ladies' skills and generosity. More than 25 children from the Grabill-Harlan-Spencerville Amish community are active patients in our hospital at this time. We cherish our close and special relationship with Amish friends in Indiana, Ohio, Michigan, Wisconsin, Iowa, Kentucky, and New York. It's always a delight to have them visit us, and we are honored by their frequent gifts.
